

# DATA SHEET PYROLUSITE

REFERENCE: PQ1023  
COMMERCIAL NAME: PYROLUSITE

## osmofilter® PYROLUSITE TO REMOVE IRON AND MANGANESE IN DRINKING WATER

Pyrolusite is a manganese dioxide of optimum quality and purity obtained from the washing, drying and screening of the selected mineral.

It is specially designed for the removal of iron and manganese in water.

---

### TECHNICAL SPECIFICATIONS

---

<b>Apparent density:</b>	2000 kg/m <sup>3</sup>
<b>Hardness:</b>	5 Mohs min.
<b>Mn content:</b>	75 % min.

---

- Available grain sizes: 0.35 - 0.85 mm
- Certifications: UNE-EN 13752
- Delivery format: 25 kg
- Sanitary registration of industries: 31.01643 / B
- NOTE: Analysis methods comply with ASTM standards and proprietary methods.
